

Fly-in Registration for Pilots

This registration records your name, address and emergency contact details to assist us in safely running the fly-in. Having information on your flying gear for example can help us with outlandings (wing colours etc). It also ensures that you clearly understand that the organizers and landowners cannot be held responsible for any claims resulting from incidents or accidents.

The fly-in is a HGFA sanctioned event and as such we remind all pilots that flying without the appropriate certification and endorsements are against the law. You are also reminded that all operations, at all times, must adhere to the rules and regulations set out in the Operations Manual of the HGFA. These are not rules set out by the organizers, they are the law.

Acknowledgement

I willingly assume full responsibility for the risks that I am exposing myself to and accept full responsibility for any injury or death to myself that may result from my participation in, presence at and observation of any activities at this event.

I forever release and discharge the event organizers and all other parties, including their owners, officers, directors, agents, spouses, family, officials (elected or otherwise), members, independent, lessors and lessees, spectators, pilots, assistants, drivers, instructors, observers, and owners of aviation equipment, from any and all liabilities, claims, demands, or causes of action that I, my personal representatives, heirs, executors, next of kin, spouses, minor children and assigns, may hereafter have for any sports injuries or death, however caused (whether passive or active), to the fullest extent allowed by law.
